PROFESSIONAL SUMMARY

Computer Science student with a strong foundation in data structures, algorithms, and system design, and applied experience across software engineering, data analysis, and cybersecurity. Skilled in translating theoretical computer science concepts into working systems, with certifications spanning multiple technology and data domains. Seeking to build on this foundation through graduate study, with particular interest in data-driven and secure computing systems.

EDUCATION

Bachelor of Science in Computer Science — University of Makeni (UNIMAK), Sierra Leone
Expected Graduation: March 2027

TECHNICAL SKILLS

CS Foundations: Data Structures & Algorithms, OOP, Software Design Patterns, System Design, Problem-Solving
Languages: JavaScript (ES6+), Python, Java, SQL
Data & Security: Data Analysis, Data Science Fundamentals, Cybersecurity Fundamentals, Database Design & Query Optimization
Software Development: React, Node.js, Express.js, Django, RESTful APIs, MySQL, MongoDB, Git/GitHub

AREAS OF INTEREST

Data Science & Analytics, Cybersecurity, Algorithms & System Design, Software Engineering

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern — CodeAlpha

- Developed and deployed full-stack web applications using React, Node.js, and Django
- Implemented RESTful APIs with authentication, authorization, and error handling for production-ready services
- Designed and optimized MySQL/MongoDB schemas, ensuring data integrity and query performance
- Collaborated using Git and pull-request reviews within agile workflows (sprint planning, standups, code reviews)

PROJECTS

Kuusor.com — Internship Platform — *React, Node.js, MongoDB*

- Co-developed a platform connecting organizations and students, enabling employers to post internship opportunities and students to discover and apply to them

Full-Stack Q&A Web Application — *React, Node.js PostgreSQL*

- Built a Q&A platform with user authentication, JWT-secured endpoints, admin dashboard, and role-based access control

Admin Dashboard System — *React, Bootstrap/CSS3*

- Built a responsive admin panel with real-time data visualization, dynamic API integration, and theme toggle

CERTIFICATIONS

- Full-Stack Development Certificate — CodeAlpha
- Front-End Development Libraries — FreeCodeCamp
- Introduction to Data Science — Cisco Networking Academy
- Cybersecurity Fundamentals — Cisco Networking Academy
- Data Analysis Essentials — Cisco Networking Academy
